WORK EXPERIENCE

React / Next Developer

Bonzark Technologies

June 2023 - current | Rajkot, Gujarat

- Spearheaded the creation, enhancement, and management of a dynamic clothing website, significantly improving the user interface and experience.
- Provided direct guidance and training to 1 intern, imparting practical knowledge in HTML, CSS, and JavaScript.
- Successfully integrated 20+ external APIs using Fetch and Axios libraries, resulting in optimized data retrieval and synchronization across the application.

React JS Developer Intern

SoluteLabs

January 2023 - May 2023 | Ahmedabad, Gujarat

- Designed Basic Amazon clone utilizing Tailwind CSS and Next.js for a responsive and dynamic user interface.
- Created a blog app using React and Tailwind CSS to deliver a visually appealing and user-friendly platform for content publication and consumption.
- Designed and developed 10+ websites using React, showcasing diverse design concepts and user experiences.

Blog App

(React JS, Tailwind CSS)

- Established a blog application enabling users to access blogs, while also empowering administrators to seamlessly perform 3 essential actions: adding, updating, and removing content.
- Implemented an OTP-based authentication mechanism for enhanced security.

Tour Booking App

(React JS, Node JS, Express JS, MongoDB)

- Engineered a tour booking application, allowing users to discover available tours, reserve bookings, access tour reviews, contribute feedback, and remarkably reducing processing time by 90%.
- Additionally, incorporated a newsletter subscription feature to keep users informed about the latest tour updates and news.
